

# THE LOPSIDED STUDIO

Quirky jewellery hand-crafted in Edinburgh

**Trade brochure**

## INFORMATION

- Quality jewellery 99% hand-crafted meticulously in Edinburgh.
- All of the pieces are handmade from scratch one at a time in our studio.
- Polymer clay based creations for lightweight comfortable pieces of jewellery.
- Two options to choose from
  - monochrome - timeless and subtle
  - seasonal colour palette - colourful and trendy
- All of the rings are adjustable and are lead & nickel free.
- All of the earrings feature high quality bumps made from sterling silver, gold filled or rose gold filled
  - Sterling silver is an alloy of silver containing 92.5% pure silver and 7.5% other metals (usually copper) - unlike other metals, sterling silver will not tarnish or get flatter over time if properly
  - Rose Gold and rose gold filled comprise a combination of 18k gold permanently bonded to a base metal. It is very hard wearing and under normal wear the gold will not peel or flake unless you scratch.
- The necklaces use either sterling silver chains or wire chokers with magnetic clasps for comfort.
- We pride ourselves on sourcing most of our materials and supplies in the UK.
- Customised commissions welcome. Get in touch to discuss the details.
- Get in touch to get a price list for the products on offer in this brochure and a copy of our terms and conditions.

## About polymer clay

Polymer clay is a synthetic modeling clay which hardens when cured in a regular electric oven.

It is an extremely versatile material which is well known amongst children and allows fine artists to make complex art installations. It can be used as is, moulded, sculpted, carved, painted etc.

If crafting polymer clay is accessible to every skills level and affordable to all budgets, it should be remembered professional looking pieces require technical skills as well as hours of work and that they are priced accordingly.

Polymer clay is durable, strong and lightweight therefore it is very comfortable to wear as jewelry. Unlike earthen clay, it remains slightly hardy after it is cured but will crack if put under excess pressure.

## SPRING / SUMMER 2019 CATALOGUE
